Subject: RE: cert

Ms. Bogner,

The Illinois EPA, Laboratory Accreditation Unit is working through a backlog of certificate renewals. We will process your renewal as quickly as we can, but we will likely issue the certificate a few weeks after Teklab's expiration date.

Your Illinois accreditation is valid until our unit is able to issue a new certificate. This e-mail can provide proof of Teklab's continued certification until the new certificate is processed.

Dave Reed
Laboratory Accreditation Officer
Division of Laboratories
Illinois EPA
